

Website Client Questions

Please respond to webmaster@dynamicccc.com

- or mail to -

46730 Hwy 11

Adams, OR 97810

Please answer the following questions as descriptively as you can so that I can get a better idea of what you are looking for in your website. If you run out of writing room just continue on the back of the page. When finished with this form, please include any content you want posted on your website. (Word/text documents, PDFs, photos, video, music, and/or sounds.) Online links to these sources are fine too!

1. Please describe your business in detail. (Services/products offered, specialties, location/areas served, years in business, business accolades/awards, etc...)
2. What are some keywords that you want on your website? (ex. Mary's Chocolate Cookies, or Pendleton Jewelry)
3. What makes your business unique from your competitors? Does your business have a specific motto, mission/pledge, or set of objectives?
4. How do people find out about your business right now? Are there other websites, like Facebook or Google Places, that provide info on your business? Would you like to have links to these or any other social networking on your new website?
5. Can you provide links to websites that do business like you? What websites do you like the look of? Do your business providers or partners have websites that you want to link to? Please list any other link you would like to see.

6. What is your business' office hours and contact information? Does your business have any special programs or special payment options for customers?

7. Do you have specific colors desired for your website? What about a favorite font type? Can you supply me with a **logo** for your business?

For colors: (I need the 6 digit hex color code): <http://www.colourlovers.com/copaso>

For fonts: <http://www.dafont.com/> or <http://www.google.com/fonts/>

8. Generally, webpages have a Home page with several other top links that navigate through the different content provided on the website. Each one of these top links can have "sublinks" that go beneath it in a drop down menu. (Ex. **Toplink:** *sublinks*. **Pizza:** *Hawaiian, Meat Lovers, Veggie*) Do you have an idea of what your navigation links would look like?

9. Do you already own a domain name (URL) (ex: www.example.net) for your site? If no, what is your desired domain name? Do you currently have a website? If yes, who hosts your website? If you have a web host, I will need access to your web hosting account so that I can upload files to the server where your website is hosted. What do you like about the website you already have and what don't you like? What are some of the changes that you would like to see?

10. Post any additional information below. If you have any questions, please include them here.
